NOVACELL

Anti Aging Plant Stem Cell System

Using advanced natraceutical (natural functional ingredients) technology, the purpose of Nova Cell© products are to reduce the effects of aging while using all-natural and organic ingredients. Each ingredient you find in our products is sourced from nature and tested for its efficacy to ensure the best results for your skin and health. Our active ingredient, Phaseolus RADIUS Meristem are the stem cells from sprouted Mung Beans. Plants possess the unique characteristic to self-regenerate hence extracted plant stem cells harness this capacity of reprogramming and regenerating which in turn is applied to your skin. **Reduces the appearance of fine lines and wrinkles.**
